## PROFILE

---

A developer with two years of experience in building user interfaces and a strong foundation in both Linux and Windows operating systems. Proficient in HTML, CSS, JavaScript, React, and Tailwind, I am skilled in creating responsive, intuitive, and visually appealing web applications. I have a basic understanding of SQL and am comfortable writing simple queries to interact with databases.

In my role at Yala, I significantly contributed to improving the stability and performance of the web platform by developing reusable and maintainable code. I worked closely with senior developers and cross-functional teams to ensure the quality and scalability of the system. Additionally, my volunteer work with Ethereum Nigeria allowed me to design and implement user-friendly interfaces for blockchain education platforms, focusing on accessibility and user engagement.

## EXPERIENCE

---

- Developed elegant and intuitive user interfaces utilizing HTML, CSS, JavaScript, React, and Tailwind.
- Enhanced user experience by integrating the latest frontend technologies.
- Contributed as an active member of Ethereum Nigeria, promoting blockchain adoption.
- Focused on advancing blockchain technology awareness and adoption within the community.

## EMPLOYMENT HISTORY

---

### • Frontend Developer , Yala

Jan 2024 – Present

In my role as a Frontend Developer at Yala, I've been pivotal in fortifying the stability and quality of our web application. Through the creation of reusable and maintainable code, my responsibilities have significantly enhanced the reliability and performance of our platform.

### Key Responsibilities:

- Lead efforts to write reusable and maintainable code, ensuring the long-term stability and scalability of our web application.
- Collaborate with other developers and engineers to design, build, and maintain application features.
- Design, implement new features using Next.js and React.
- Redesign existing feature and especially user interface features in the platform to make it more mobile friendly and improve the customer workflows.
- Identify and fix software bugs.
- Write detailed documentation around the code.
- Drive initiatives to improve the overall user experience by implementing intuitive interfaces and user centric design principles, resulting in a seamless and engaging user journey.

### • Frontend Developer Volunteer

Feb 2023-Dec2023

As a Frontend Developer volunteer with Ethereum Nigeria, I played an integral role in shaping the online presence and user experience of the organization's platforms and web applications. Collaborating closely with the development team, I designed and developed responsive, intuitive, and visually appealing user interfaces, employing modern frontend frameworks such as React.js and next.js.

### Key Responsibilities:

- Designed and developed user interfaces for Ethereum Nigeria's web applications and educational platforms, focusing on accessibility and user engagement.
- Conducted user research and gathered feedback to continually enhance the user experience and interface design.
- Collaborated with backend developers, designers, and other stakeholders to translate requirements into functional frontend solutions.
- Wrote clean, efficient, and well-documented code, ensuring compatibility and consistent user experience across various devices and browsers.
- Conducted thorough testing and debugging of frontend components, addressing any bugs or performance issues promptly. This volunteer experience not only allowed me to contribute my skills to advance blockchain education in Nigeria but also provided me with valuable experience in working remotely and collaborating effectively within a volunteer-based environment. It was a fulfilling opportunity to make a meaningful impact in the blockchain community while continuously learning and growing as a frontend developer.

## EDUCATION

---

- |  |           |
|--|-----------|
| • University Of Ibadan (BSc. Biochemistry)         | 2017-2023 |
| • UDEMY (JavaScript)                               | 2022-2023 |
| • SQI College Of Technology (Software development) | 2024      |

## SKILLS

---

- Technical Skills

♣ HTML5 ♣ CSS3 ♣ JavaScript ♣ Git/GitHub ♣ Tailwind CSS ♣ Responsive Design ♣ React ♣ TypeScript ♣  
♣ Postman ♣ Figma ♣ MySQL

- Soft Skills

♣ Fast Learner ♣ Agile Methodologist ♣ Active Listener ♣ Flexible and Adaptable ♣ Passionate Learner
